Electric Minerals

Real at Last

Finally, minerals that work! Avena's team of Scientists has spent the last eight years to formulate only those minerals that have an electric synergistic compatibility. This brilliant Electrically Available[®] formulation lays down these food-grade minerals in a duplication of the timeless wisdom displayed in nature. In the case of mineral formulations, higher amounts are not necessarily better. The body has to recognize their electrical matrix as food. Electrical integrity is the key for mineral supplementation to be of value to the body.

Avena's Electrically Available[®] Minerals–Real At Last have increased the absorbability of minerals to levels seldom achieved. Electrically Formulated[®], with the absence of heavy metals, this unique combination supplies high levels of mineralization–without the body suffering toxic buildups. A lot of our food is grown in mineral deficient soil and thus lacks the minerals it would normally provide to us.

FEATURES:

- Electrically Formulated[®] with compatible, nutritional, minerals enhancing absorbability
- Plant-based, contain no heavy metals
- Encapsulated for electrical stability
- Not just a capsule full of chemicals, but 'Real At Last' Minerals with electrical integrity, and nutritionally compatible for the body
- The Electrical Availability helps in reducing liver detoxification stress

BENEFITS:

- Helps in formation of elastin, and collagen
- Enhances energy availability
- Rebuilds tissues to enable increased cell expansion, and thus nutrient movement
- Helps increase mental acuity and memory
- Helps restore brightness and vividness of sight

Ingredients: two capsules contain:

Potassium	144 mg
Magnesium	52 mg
Calcium	13 mg
Iron	2 mg
Zinc	10 mg
Manganese	500 mcg
Copper Lysinate	500 mcg
Chromium	50 mcg
Selenium	50 mcg
Molybdenum	100 mcg
Vanadium	80 mcg

... in a base of Dulse
